

Statement M-LOCKS B.V.

Doetinchem, January 3, 2024

Dear Sir or Madam,

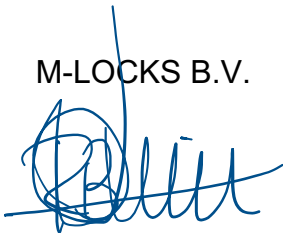

In addition to procedural, economic and technical criteria, M-LOCKS also pays attention to social and ecological aspects such as human rights, working conditions, corruption prevention and environmental protection in its procurement activities.

In the field of tension between product/service, market, region and process, quality, reliability, innovation and sustainability are important factors for M-LOCKS when selecting business partners.

With regard to cooperation with its business partners, M-LOCKS has particular respect for human rights and environmental protection, compliance with ethical standards, applicable legislation and integrity.

M-LOCKS strives within its capabilities to respect the principles of the International Labour Organisation (ILO), the principles of the United Nations Global Compact and national and international laws and industry standards in the supply and service chains it uses.

M-LOCKS B.V.

R.B.J. Wolsink
Managing Director
